SPECIFICATIONS

Our PGD ballistic NIJ 3A visor is a critical piece of personal protective equipment designed to provide maximum protection and comfort.

It is tested to the NIJ 3a standard and can withstand handguns and fragments.

The visor fits both our ARCH and MICH helmets, making it a versatile solution for many operational needs.

The visor can be easily flipped up and down as needed, providing flexibility and increased user-friendliness.

The visor weighs only 1300 grams including holders, making it solid and protective without being too heavy.

BALLISTIC TESTING

- The visor is tested to the NIJ IIIA standard for protection against .44 magnum and 9 mm, and provides fragmentation protection according to STANAG 2920 V50 = 725 m/s
