KEY FEATURES

-  **SNUG FIT**
-  **AGILE AND FAST ADJUSTMENT**
-  **MADE IN EUROPE**
-  **MADE FOR EXTREME USE**
-  **PGD FIT DIAL SYSTEM**
-  **HIGH QUALITY MATERIALS**

SPECIFICATIONS

The PGD helmet's retention system is built using high-quality ITW Nexus and Duraflex buckles, along with premium European nylon webbing, maximizing durability and ensuring the straps hold the helmet securely and comfortably in place.

The PGD dial retention system features a precision dial to adjust the helmet for a custom, secure fit with ease.

This innovative system, widely trusted across industries for eliminating the need for traditional laces or buckles, enables quick, one-handed adjustments, ensuring optimal comfort and positioning for ballistic helmets.

All materials used are IRR safe.
