SPECIFICATIONS

The PGD TQR 2.0 is built from original 500D Cordura™ laminate by Foxa O.

It delivers maximum durability in an ultra-lightweight design. Furthermore it is fully IRR safe and engineered to perform in extreme conditions from -20°C to +60°C. Equipped with Italian-made 2M™ Quick-Release Buckles for rapid donning and removal keeping you mission-ready, wherever you operate.

The PGD TQR 2.0 features integrated shoulder straps and an Exo cummerbund. Reinforced shoulders with 1,472 kg breaking strength ensure maximum stability. Extra-padded shoulder straps with laser-cut MOLLE slots provide comfort and smart cable routing.

It includes a 6x3 MOLLE placard for modular loadout.

2-year warranty on the textile carrier.
